Consumer Expectations

Consumer testing enables us to obtain a precise idea of consumer expectations. Our products bring increased convenience to the end user and added value to our customers.

Caring for the Environment a special beverage valve

We have developed a specific valve for beverage which respects the PET recycling stream.

Consumer-preferred

"This closure is great for sports - makes drinking fun."

"It has a good hinge which doesn't get in the way when I drink."

"Safe for my children - no loose overcap."

*"The drink flows easily."
"I can put it in my bag and it won't leak."*

"Easy to open and snap shut."

"The spout feels comfortable to drink from."
