

SEMI AUTOMATIC END LOAD CARTONER

www.tfreemantle.com

FUNCTION

The machine carton magazine is loaded with flat cartons. The machine cycles continuously and on demand selects and erects the flat cartons. The erected cartons are then passed by the loading area where the product is pushed from the infeed conveyor across and into the open carton by the operator. The carton flaps are then automatically folded, glued and sealed. The carton is then ejected from the end of the machine wide edge leading.

Technical Details

- Electrical requirements** Supplied with a 3 metre armoured cable complete with 2P+Earth 32 amp plug for connection to a single phase 20 amp supply
- Compressed Air** Supplied with filter regulator with 8mm push in fitting for connection to 80psi/5.5 bar compressed air supply
- Lifting weight** 1,000 kilos. Ideal lifting points marked for fork truck offloading
- Adhesive type** Standard packaging grade Hot Melt or Coolmelt glue

Alternative specifications available for worldwide installations

Capable of sealing up to 80 cartons per minute

Fully adjustable for a wide range of carton sizes

X - 110 to 350mm

Y - 50 to 250mm

Z - 20 to 100mm

Other sizes not shown can be run with modification (subject to quotation). Restrictions apply to certain combinations of sizes.

MAIN FEATURES

- Quick and simple size change that can be completed in less than 10 minutes
- Fibreless food grade infeed conveyor with independently variable speed drive
- Variable speed
- Full 24v safety interlock system to give easy access to the machine while being safe and simple to operate
- No change parts required to run a variety of carton sizes
- Fitted with glue jet applicator unit to give the cleanest and most efficient glue application available
- Built round a one piece stainless steel frame fitted with castors making the machine both robust and easily mobile
- Low carton detection with timed warning beacon
- Built to stringent quality control procedures to ensure customer satisfaction
- Simple and easy to understand machine controls
- Available with a wide range of options and specifications to suit individual customer requirements

"We have built our reputation on a number of core values - quality, reliability and innovation. The experience of our technical engineers and their focus on customer satisfaction has created a product range that is simple, robust, hygienic and can be applied to most sectors including food, cosmetics, household goods and healthcare."
