

WRAPAROUND SLEEVER

www.tfreemantle.com

FUNCTION

The machine accepts random supply of product from the line, automatically selects and loads the required number into the machine. A sleeve is then selected from the sleeve magazine and placed directly on the product. The sleeve is folded around the products, applied with glue and sealed. The finished pack is then ejected through driven discharge belts.

WRAPAROUND SLEEVE

Technical Details

Electrical requirements	Supplied with a 3 metre armoured cable complete with 2P+Earth for connection to a single phase 16 amp supply
Compressed Air	Supplied with filter regulator with 8mm push in fitting for connection to 80psi/5.5 bar compressed air supply
Lifting weight	1,500 kilos. Ideal lifting points marked for fork truck offloading
Adhesive type	Standard packaging grade Hot Melt or Coolmelt glue

Alternative specifications available for worldwide installations

Capable of sealing up to 150 sleeves per minute

Fully adjustable for a wide range of carton sizes

X - 70 to 200mm

Y - 70 to 250mm

Z - 15 to 85mm

Other sizes not shown can be run with modification (subject to quotation). Restrictions apply to certain combinations of sizes.

MAIN FEATURES

- Quick and simple size change
- Fitted with glue jet applicator unit to give the cleanest and most efficient glue application available
- Integral automatic inline transfer system for fast yet gentle product loading
- Built round a one piece stainless steel frame fitted with castors making the machine both robust and easily mobile
- Variable speed
- Sealed for life gearboxes and bearings throughout to cut down on routine maintenance
- Low sleeve detection with timed warning beacon
- Built to stringent quality control procedures to ensure customer satisfaction
- Full 24v safety interlock system to give easy access to the machine while being safe and simple to operate
- Simple and easy to understand machine controls
- Available with a wide range of options and specifications to suit individual customer requirements

"We have built our reputation on a number of core values - quality, reliability and innovation. The experience of our technical engineers and their focus on customer satisfaction has created a product range that is simple, robust, hygienic and can be applied to most sectors including food, cosmetics, household goods and healthcare."
